One of the objectives of these organizations is to develop actions to promote the pork in the domestic market in order to improve the perception of the pig meat and pig meat products, by providing the consumers and the professionals in the industry all the information regarding its healthy benefits and high quality. To defend and promote the common interests of the sector is a common challenge.

These 3 organizations are working on an application for a program that the European Union has in progress for the promotion of agri-food products in the internal market.

INTERPORC will assume the role of project coordinator.

For the definition and execution of these programs, the three organizations are seeking the collaboration of promotion agencies that will work in the development of the activities that are incorporated into the projects. Consequently, a selection process is now underway, firstly calling for bids from agencies with experience in the promotion of agri-food products and in the execution of European projects that wish to participate and that, due to their merits and experience, could contribute more to the promotional policy of the three organizations.

In order to finance this campaign, the organizations mentioned will send a request to the EU *multi* funding program for information and promotion of agricultural products, for the years 2020, 2021 and 2022.

The budget for this campaign will be € 7,500,000 to distribute for 3 years. The allocation will be € 3,000,000 for INTERPORC, € 3,000,000 for INAPORC and € 1,500,000 for FILPORC.

The objective is to launch an innovative program that effectively promotes the European pork in Spain, France and Portugal. It is intended to increase the consumption of pork informing the consumer about its quality and nutritional properties and enhancing the sustainability of European pig production.

In this way, we intend to communicate a strong message addressed to the consumers of these countries.

There will be a specific program in each country for the promotion of their national pork.

European pork will be promoted through the 'Enjoy it's from Europe' programme according to Regulation (EU) No 1144/2014.
